

**NRT TECHNO SOLUTIONS**

**Heling Manufacturing Capabilities to Excel**

**Sharifpur Bhainsroli, Saidpur, Bulandshahr, Siyana,  
Uttar Pradesh, India, 203411**

NRT has been contributing its sincere efforts to the machineering. We are a new and known establishment founded in 2023.

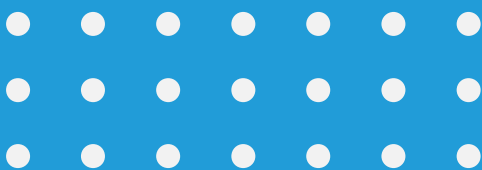

Established with a vision to provide the best customer service and to be the company that best understands the needs of customers through our products and services.

### **PROMOTORS**

The promoters of the company come from a strong background in the field of manufacturing, assembly and servicing of special purpose machinery having 18+ years of experience.

- Our business objective is to be the best in every aspect of our business by utilizing our core competencies and to have the highest customer satisfaction
- We have successfully implemented several projects in India and overseas (Bangladesh, Indonesia, and Thailand), always ensuring that quality products were delivered on time, every time.
- We are known for technical skills and passion towards customers. We are committed to provide custom-made solutions which enhances the customer's productivity and efficiency.

### WHAT WE DO –

Servicing of all type of machine spindles, Overhauling and servicing of all type of SPM Machines, Machine Installation & Proveout (Process Capability), Hydraulic and Pneumatic Piping, Jig and Fixtures for Automobile and General engineering, Fixture Proveout with CNC programming, Machine Shifting and plant shifting etc.

### Specialization –

- Overhauling/Servicing/Maintenance of all types of Fine Boring Machines like Crank case Fine Boring, Crankshaft Fine boring, Cylinder Block FB, Conrod FB machines.
- All type of spindle assembly, overhauling with high precision accuracy.
- Hydraulic and Pneumatic Piping
- All type of machine slide scrapping, turcite changing, rotary table repairs and assembly etc.
- Strong network of sub-contractors for our additional manufacturing and electrical requirements.

## RETRO FITTING & SERVICING

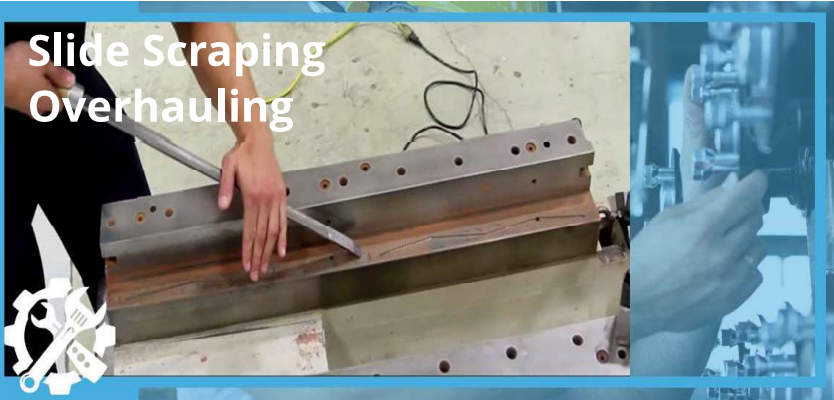

### Rotary Table Repair & Servicing

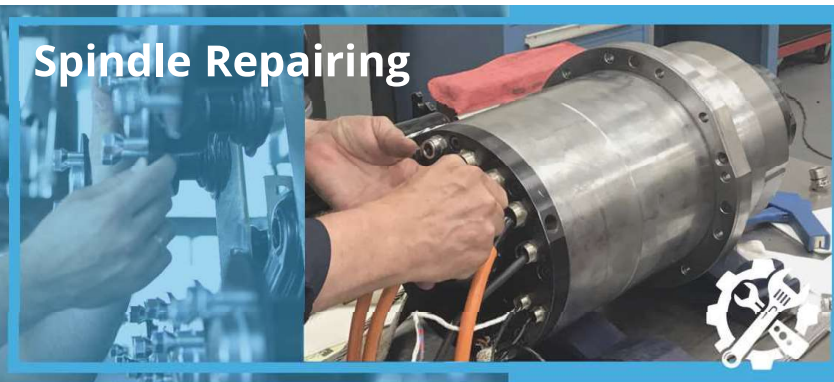

We undertake repairing and servicing of all type of Rotary Tables, primarily of four different mechanisms Roller cam structure, Rotary table with worm gear structure, DD structure rotary table, and harmonic structure rotary table.

We also undertake regular standard repairing and servicing of Slide Scraping and Overhauling.

### Slide Scraping Overhauling

### Spindle Repairing

Our expert engineering team with superior Servicing abilities, takes care it with a aim to maximize Spindle Performance and Reliability after service.

## RETRO FITTING & SERVICING

### Multi Spindle

Multi Spindle is a screw machining in which the material or workpiece is cut into small pieces, our expert team of engineers takes care every expects while servicing.

Hydraulic pneumatic Fixture – A special process device, we undertake regular standard repairing and servicing of Hydraulic pneumatic fixtures.

### Hydraulic Pneumatic Fixture

### Man Power

We provides Man power/candidates who have the potential to meet your immediate and long-term requirement, to keep your business ahead.
